To whom it may concern,

I have been fortunate enough to work with Yeray for over a year at Netcom.

From day one, he has shown great commitment to both his responsibilities and his team. He has consistently demonstrated his desire to work, learn, and improve in his projects.

He has always been proactive, trying to help the rest of the team and see if he could take on more responsibilities to lighten the team's workload and improve the working environment.

He has demonstrated a great ability to study, evaluate, select, and implement new tools or components to add to existing projects in order to improve them. In this regard, he has been very decisive and disciplined in generating the necessary documentation to transfer this knowledge base to the rest of the team.

Yeray is a disciplined person, he has always kept to his schedule and has had no problem meeting project deadlines. For all these reasons, I am convinced that any company would benefit from adding him to their team.

I am available to provide further information to anyone who is interested.
